

Richardson I.S.D. Calculator Agreement

According to RISD policy, a graphing calculator may be checked out for use during the school year in the same manner that textbooks are checked out. Students will be issued a calculator which will be identified by serial number and a school number. The calculator will be issued with working batteries. The student is responsible for replacing the batteries as needed. The replacements (4 AAA batteries) must all be the same brand and all new. Mixing battery sets can permanently damage the calculators. If the calculator is damaged or lost, or if the calculator is stolen, the student will be required to notify the math teacher and pay for the calculator at a cost of the issued model. See replacement cost below. Students must return the same calculator which was checked out to him/her, with working batteries. Both the calculator and its cover must be returned. If the calculator is broken, Texas Instruments, TI, may be able to repair it. It will be the student's responsibility to contact TI and make arrangements for the calculator to be repaired; this repair expense is the student's obligation. The TI phone number is (972) 917-8324.

<u>Model</u>	<u>Replacement Cost</u>
TI-83	\$96.00
TI-83 plus	\$96.00
TI-84 plus silver	\$96.00
TI-89	\$130.00

☐ I have read and agree with the R.I.S.D. calculator usage agreement and choose to check out a calculator.

☐ I have read the R.I.S.D. calculator usage agreement and choose NOT to check out a calculator.
