

Calculators during Distance Learning

TI has given a lot of options if your calculator is MIA during this time. These are all emulators (like the one I use on my computer) so they don't have all the apps, but it has anything that would be on a cleared TI-84 CE (including numeric solver).

- District-issued chromebooks should have the calculator app downloaded. Let me know if you don't see it!
- Non-district issued chromebooks: <https://chrome.google.com/webstore/detail/ti-84-plus-ce-app-for-chr/compdaiogbfdpildfbleipdcglmmlojo>
- Non-Chromebook computers: <https://education.ti.com/en/software/update/free-ti-software-license-student>

Desmos (<https://www.desmos.com/calculator>) is also a great option to use – they are adding a ton of features every day.

FAQ:

My calculator isn't working and it's not a battery issue. What do I do?

Call or email TI: <https://education.ti.com/en/customer-support>

How are we going to turn in our school calculators if we don't go back to school?

Great question! I have no idea!

Anything else?

Let me know! I'll do my best to figure it out ☺
